Quench 152

Improve your coffee carafe with the Quench 152. This thermal coffee brewer holds up to 74 oz. of hot fresh coffee for up to 6 hours – no more burnt-tasting coffee! With its state-of-the-art pulse brewing technology, the Quench 152 only brews when the water has reached optimum brewing temperature, enhancing the flavor in every brew. When idle, the Quench 152 automatically reduces its energy consumption, switching to an energy save mode. The Quench 152 also has a hot water spigot for tea, hot chocolate, and instant soup.

Thermal Coffee Brewer

- Advanced digital system with pulse brewing technology
